Getting Started
When using your nüvi for the first time, complete the following tasks.

1. Power your device (page 2).
2. Mount your device (page 3).
3. Configure your device (page 4).
4. Acquire satellites (page 4).
5. Understand the Main menu (page 5).

Powering the Device
Connect your device to the vehicle power cable while it is plugged into your vehicle.
Your nüvi charges as you drive.

Power Cables
Your device can be powered three ways.

- Vehicle power cable
- USB cable
- AC adapter (optional accessory)

If you do not plan to use your device while it is connected to a power source, press the Power button to lock the device. For more on locking the device, see page 11.
Mounting Your Device

**WARNING**
This product contains a lithium-ion battery. To prevent the possibility of personal injury or product damage caused by battery exposure to extreme heat, remove the device from the vehicle when exiting or store it out of direct sunlight.

1. Remove the clear plastic from the suction cup.
2. Place the suction cup on the windshield.
3. Flip the lever back toward the windshield.
4. Snap the mount onto the suction cup arm.
5. Fit the bottom of your device into the mount.
6. Tilt your device back until it snaps into place.

Configuring your Device

1. Plug the vehicle power cable into the mount.
2. Plug the other end of the vehicle power cable into a power outlet in your vehicle.
   Your unit should turn on automatically if it is plugged in and the vehicle is running.
3. Follow the on-screen instructions.
4. If you are using a traffic receiver, connect the external antenna to the traffic receiver and secure it to the windshield using the suction cups.

Acquiring Satellites

The bars indicate satellite strength.

1. Go outdoors to an open area, away from tall buildings and trees.
2. If necessary, turn on your device.
   Acquiring satellite signals can take a few minutes. When at least one of the bars is green, your device has acquired satellite signals.
Main Menu

1. GPS satellite strength.
2. Touch to select a transportation mode.
3. Touch to find a destination.
4. Touch to view the map.
5. Touch to stop a route.
6. Touch to detour a route.
7. Touch to make a call when connected to a compatible mobile phone. See www.garmin.com/bluetooth for information.
8. Touch to activate Voice Command
9. Touch to adjust the volume.
10. Touch to open the menu of tools and settings.

Finding Points of Interest

1. From the Main menu, touch Where To? > Points of Interest.
2. Select a category and a subcategory, if necessary.
3. Select a destination.
4. Touch Go!.

Finding a Place by Spelling the Name

1. From the Main menu, touch Where To? > Points of Interest > Spell Name.
2. Enter the name your destination.
3. Touch Done.
4. Select a destination.
5. Touch Go!.

Searching Near Another Location

1. From the Main menu, touch Where To? > Near.
2. Select an option.
Using the On-Screen Keyboard & Handwriting Pad

When an on-screen keyboard appears, touch a letter or number to enter it.

Touch \[ \text{\(\geq\)} \] to add a space. Touch \[ \text{\(<\)} \] and \[ \text{\(\geq\)} \] to move the cursor. \[ \text{\(\geq\)} \] Touch to delete a character. Touch and hold \[ \text{\(\geq\)} \] to erase the entire entry. Touch Mode to select the keyboard language mode. nüvi 3790 supports keyboards in English, Japanese, simplified Chinese, and traditional Chinese.

You can also use the on-screen handwriting pad to enter characters in English, simplified Chinese, and traditional Chinese.
Following Your Route
Your route is marked with a magenta line on the map. If you depart from the original route, your device recalculates the route. A speed limit icon could appear as you travel on major roadways.

1. Touch to view the Next Turn page. If a view of the junctions exists, the Junction View page appears.
2. Touch to view the Turn List page.
3. Touch to zoom in and out.
4. Touch to return to the Main menu.
5. Touch to change the data field.
6. Touch to view the Where Am I? page.
7. Touch and drag the map to view a different area of the map.
8. Touch to view the Trip Computer page.

Adding a Stop
Before you can add a stop, you must be navigating a route.

1. Touch to return to the Main menu.
2. Touch Where To?.
3. Search for the extra stop.
4. Select the stop from the search results.
5. Touch Go!.
6. Touch Add to Current Route.
Taking a Detour
Before you can take a detour, you must be navigating a route.

1. Touch to return to the Main menu.
2. Touch Detour.

If the route you are currently taking is the only reasonable option, the device might not calculate a detour.

Orienting the Screen
Rotate your device to view in horizontal (landscape) or vertical (portrait) mode.

Adjusting the Screen Brightness
1. Touch Tools > Settings > Display > Brightness.
2. Touch and move the scroll bar to adjust screen brightness.

About Traffic
The FM Traffic Message Channel (TMC) traffic receiver is available in retail shops. It is built into the vehicle power cable.

The traffic receiver and the nüvi must be in data range of an FM station transmitting TMC data to receive traffic information. You do not need to activate the subscription included with your FM traffic receiver.

If a severe traffic delay occurs on your route, the device automatically recalculates the route. The traffic icon (_traffic_light_) changes color to indicate the
severity of traffic conditions on your route or on the road you are traveling.

NOTE: Garmin is not responsible for the accuracy of the information.

About Voice Command
NOTE: Voice Command supports British English only not supports Bahasa Malay. Some functions may be invalid.

The Voice Command feature is available on some nüvi models. Voice Command allows you to use your device by speaking the words you see on the screen or by speaking certain commands. The Voice Command menu provides a list of available commands to use.

Activating Voice Command
1. Speak Voice Command.
   The voice command menu appears.

   2. Press ASR icon. The voice command menu appears.

Tips for Using Voice Command
- Talk in a normal voice directed at the device to speak a command exactly as it appears on the screen.
- Respond to voice prompts from the device as needed.
- Speak numbers to enter numbers.
- Speak Exit to exit Voice Command.

Navigating with Voice Command
1. Speak your wakeup phrase.
   The voice command menu appears.

2. Speak Find by Name.

3. Listen for the voice prompt and speak the name of the place.
The device repeats the name of the place as it is searching.
A list of locations appears.

4. Speak the line number of the location you want.

5. Speak **Yes** to navigate to the location, or speak **No** to go back to the list of found locations.

**Hands-free Features**
Hands-free calling is available on some nüvi models.

**Pairing Your Phone**
Before you can pair, your phone and the device must be turned on and near each other.

1. Enable the Bluetooth® component on your phone.
2. Touch **Tools > Settings > Bluetooth**.
3. Touch the button below **Bluetooth > Enabled > OK**.
4. Touch the button below **Phone**.
5. Touch **OK**.
6. Select your phone, and touch **OK**.
7. Enter the Bluetooth PIN (**1234**)
for your device in your phone.

**Placing and Ending Calls**
1. Touch **> Dial**.
2. Enter the number.
3. Touch **Dial**.
4. Touch **> End Call** to end a call.

**Answering a Call**
When you receive a call, the Incoming Call window opens.

1. Touch **Answer**.
   **TIP**: Touch **Ignore** to stop your phone from ringing.
2. Speak normally.
   The internal microphone is in the front of the device. Speak normally.
About Sleep Mode

You can use sleep mode to conserve battery power when your device is not in use. Sleep mode uses very little power, and a battery charge lasts for weeks when your device is in sleep mode.

- Press the **Power** button to put the device in sleep mode.
- Press and quickly release the **Power** button and double-tap to wake up the device.

Resetting the Device

You can reset your device if it stops functioning.

Press and hold the power button for 10 seconds.

More Information

For more information about your device, select **Tools > Help**.
