Introduction

**WARNING**

See the *Important Safety and Product Information* guide in the product box for product warnings and other important information.

Always consult your physician before you begin or modify any exercise program.

**Using the Device**

- Press the key ① to scroll through device features and menu options.
- Hold the key for 1 second to view the menu.
- Hold the key for 1 second to select menu options.
- Hold the key for less than 1 second to turn on the backlight. The backlight turns off automatically.

**Pairing with Your Smartphone**

Before you can pair your vivofit jr. device with a smartphone, at least one parent or guardian must have a Garmin Connect™ account (*Garmin Connect, page 1*).

Your device must be paired directly through the vivofit jr. app, instead of from the Bluetooth® settings on your smartphone.

1. From the app store on your smartphone, install and open the vivofit jr. app.
2. Log on using your Garmin Connect username and password.
3. Follow the instructions in the app to set up your family and add each child.
4. On the vivofit jr. device, hold the key until ☑️ appears. The device enters pairing mode.
5. Follow the instructions in the app to complete the setup process.

**Activity Goal**

To improve children’s health, organizations such as the U.S. Centers for Disease Control and Prevention recommend at least 60 minutes of physical activity each day. This can include moderate intensity activity, such as brisk walking, or vigorous intensity activity, such as running.

The device encourages children to be active by displaying their progress toward the 60 minute daily goal.

**Chore Progress**

You can use the vivofit jr. app to create and assign chores, as well as update your children’s chore progress. When your vivofit jr. device is connected to a smartphone, the device displays the updated number of chores completed and assigned for the day.

**Coins Earned**

You can use the vivofit jr. app to award coins for chore completion. When your vivofit jr. device is connected to a smartphone, the device displays the updated number of coins earned.

**Menu Options**

You can hold the key to view the menu, and press the key to scroll through the options.
Using the Task Timer
You can use your device to start a countdown timer.
1. Hold the key to view the menu.
2. Hold .
3. Press the key to scroll through the task timer options.
4. Hold the key to select and start a timer.
   - The device beeps, the timer begins counting down, and the device sends a notification to the nearest paired smartphone.
   - When 3 seconds remain, the device beeps until the time expires.
   - TIP: You can hold the key to stop the timer.

Task Timer Options
Your device comes preloaded with task timers that can be used for common activities. For example, you can use the two minute timer for brushing your teeth or any other task that takes two minutes. Each task is timed for a preset number of minutes.

Using the Stopwatch
1. Hold the key to view the menu.
2. Hold .
3. Press to start the timer.
4. Press to stop the timer.
5. If necessary, press to reset the timer.
6. Hold the key to exit the timer.

Move Bar
Sitting for prolonged periods of time can trigger undesirable metabolic state changes. The move bar reminds you to keep moving. After one hour of inactivity, the move bar 1 appears. Additional segments 2 appear after every 15 minutes of inactivity.

You can reset the move bar by walking a short distance.

Sleep Tracking
While you are sleeping, the device monitors your movement. You can set your normal sleep hours in the vivofit jr. app settings. You can view your sleep statistics in the vivofit jr. app.

History
Your device keeps track of your daily activity and sleep statistics. This history can be sent to the vivofit jr. app.

Sending Data Manually to Your Smartphone
Your device periodically sends data automatically to the nearest paired Bluetooth device. You can also manually send data at any time. This allows you to view activities, chores, and coins in the vivofit jr. app.
1. Bring the device near your smartphone.
2. Open the vivofit jr. app.
3. On the vivofit jr. device, hold the key to view the menu.
4. Hold ☰.
   - ☰ appears, and the red move bar is in motion while the device is sending data.
5. On your smartphone, swipe down to refresh the app.

Customizing Your Device
vivofit jr. App Settings
You can customize your device, user, and app settings in the vivofit jr. app.

From the vivofit jr. app, select More.

Family settings: Allows you to customize your family settings. For example, you can edit your family name or invite additional parents or guardians.

App settings: Allows you to customize app settings, enable Kid Mode, and view legal and regulatory information.

Help: Includes device care, videos, and other helpful information.

*The device withstands pressure equivalent to a depth of 50 m. For more information, go to www.garmin.com/waterrating.

Software Update
When a software update is available, your device automatically downloads the update when you send data to your smartphone (Sending Data Manually to Your Smartphone, page 2).

A progress bar and ☰ appear on the vivofit jr. device during the update process. The update can take several minutes. You should keep the device near your smartphone during the update. When the update is complete, your device restarts.

Viewing Device Information
You can view the unit ID and software version.
1. Hold the key to view the menu.
2. Hold ☰.
Device Care

**NOTICE**
Avoid extreme shock and harsh treatment, because it can degrade the life of the product.

Avoid pressing the keys under water.
Do not use a sharp object to clean the device.
Avoid chemical cleaners, solvents, and insect repellents that can damage plastic components and finishes.
Thoroughly rinse the device with fresh water after exposure to chlorine, salt water, sunscreen, cosmetics, alcohol, or other harsh chemicals. Prolonged exposure to these substances can damage the case.
Do not place in high temperature environments, such as a clothes dryer.
Do not store the device where prolonged exposure to extreme temperatures can occur, because it can cause permanent damage.

Cleaning the Device
1. Wipe the device using a cloth dampened with a mild detergent solution.
2. Wipe it dry.
After cleaning, allow the device to dry completely.

**TIP:** For more information, go to www.garmin.com/fitandcare.

User Replaceable Batteries

**WARNING**
See the Important Safety and Product Information guide in the product box for product warnings and other important information.

Replacing the Battery
The device uses one CR1632 battery.
1. Remove the device from the band.
2. Use a small Phillips screwdriver to remove the four screws on the back of the device.
3. Remove the rear case and battery.
4. Insert the new battery with the negative side facing the inside of the front cover.
5. Verify the gasket is not damaged and that it is fully seated in the rear case.
6. Replace the rear case and the four screws.
7. Tighten the four screws equally and firmly.
8. Insert the device into the flexible silicone band by stretching the band material around the device. The arrow on the device must be aligned with the arrow inside the band.

Band Replacement
The band is designed to fit most children ages 4 to 9. If the band is too small, go to the help section of the vivofit jr. app, and follow the on-screen instructions to get a replacement band. You can contact Garmin® customer support for information about optional accessories and replacement parts. The removable device is compatible with vivofit 3 and vivofit jr. 2 bands.

Replacing the Band
Go to buy.garmin.com, or contact your Garmin dealer for information about optional accessories.

1. Remove the device from the band.
2. Insert the device into the flexible silicone band by stretching the band material around the device. The arrow on the device must be aligned with the arrow inside the band.

Troubleshooting

My step count does not seem accurate
If your step count does not seem accurate, you can try these tips.
- Go to http://garmin.com/ataccuracy.
- Wear the device on your non-dominant wrist.
- Carry the device in your pocket when actively using your hands or arms only.
NOTE: The device may interpret some repetitive motions, such as clapping your hands or brushing your teeth, as steps.

My device does not display the correct time
The device updates the time and date when you send data to your smartphone. You should manually send data to your smartphone to receive the correct time when you change time zones, and to update for daylight saving time.

1. Confirm that your smartphone or mobile device displays the correct local time.
2. Send data to your smartphone (Sending Data Manually to Your Smartphone, page 2). The time and date are updated automatically.

Is my smartphone compatible with my device?
The vivofit jr. device is compatible with smartphones using Bluetooth Smart wireless technology. Go to www.garmin.com/ble for compatibility information.

Pairing Multiple Mobile Devices
After you complete the initial setup (Pairing with Your Smartphone, page 1), you can pair your vivofit jr. device with up to two additional mobile devices, such as a tablet or another parent's smartphone.

1. From the app store on your smartphone or tablet, install and open the vivofit jr. app.
2. Log on using your Garmin Connect username and password.
3. Follow the instructions in the app to join an existing family.
4. Bring your mobile device within 3 m (10 ft.) of your vivofit jr. device.
   NOTE: Stay 10 m (33 ft.) away from other mobile devices while pairing.
5. If necessary, turn off Bluetooth wireless technology on previously paired mobile devices.
6. On the vivofit jr. device, hold the key to view the menu.
7. Hold \ to enter pairing mode.
8. Follow the instructions in the app to complete the pairing process.
9. If necessary, repeat steps 1 through 8 for each additional mobile device.

How do I pair an additional device with the vivofit jr. app?
If you have already paired a device with the vivofit jr. app, you can add a new child and device from the kid menu. You can pair up to eight devices.

NOTE: Each child can pair with one device.

1. Open the vivofit jr. app.
2. Select +.
3. Follow the on-screen instructions.

Resetting the Device
If the device stops responding, you may need to reset it. This does not erase any of your data.

NOTE: Resetting the device also resets the move bar.

1. Hold the device key for 10 seconds until the screen turns off.
2. Release the device key.
   The device resets, and the screen turns on.

My device won't turn on
If your device no longer turns on, you may need to replace the batteries.

Go to (Replacing the Battery, page 3).

Appendix

Getting More Information
- Go to support.garmin.com for additional manuals, articles, and software updates.
- Go to www.garmin.com/intosports.
- Go to www.garmin.com/learningcenter.
- Go to buy.garmin.com, or contact your Garmin dealer for information about optional accessories and replacement parts.

Software License Agreement
