Getting Started

WARNING
See the Important Safety and Product Information guide in the product box for product warnings and other important information.

When using the device the first time, complete these tasks.
1 Charge the device (page 1).
2 Turn on the device (page 1).
3 Start a round (page 1).

Charging the Device

WARNING
The charging cradle contains a magnet. Under certain circumstances, magnets may cause interference with some medical devices, including pacemakers and insulin pumps. Keep the charging cradle away from such medical devices.

This device contains a lithium-ion battery. See the Important Safety and Product Information guide in the product box for product warnings and other important information.

NOTICE
The charging cradle contains a magnet. Under certain circumstances, magnets may cause damage to some electronic devices, including hard drives in laptop computers. Use caution when the charging cradle is near electronic devices.

To prevent corrosion, thoroughly dry the contacts and the surrounding area before charging or connecting to a computer.

1 Plug the USB end of the cable into the AC adapter or a computer USB port.
2 Plug the AC adapter into a standard wall outlet.
3 Align the contacts on the back of the device with the posts on the charging cradle.

The charging cradle is magnetic and holds the device in place.

When you connect the device to a power source, the device turns on, and the charging screen appears.
4 Charge the device completely.

Turning On the Approach

The first time you use the device, you are prompted to choose your language.

NOTE: The time of day and date are set automatically when you are outdoors. You can also set it manually (page 3).
1 Hold POWER.
2 Select your language.
3 Go play a game of golf (page 1).

Touchscreen Tips

The device touchscreen is different than most mobile devices. The touchscreen is designed so you can operate it with your finger tip or while wearing gloves. The touchscreen is optimized to prevent accidental touches while you play.

NOTE: You must press firmly in order to select items and change pages. You should practice using the touchscreen before you play.

• Tap the touchscreen to scroll through the pages.
• Select > Lock Screen to lock the screen from the hole view, layup and dogleg, shot measurement, or odometer screen.
• Tap the touchscreen and swipe left to exit power save mode or to unlock the screen.
• Tap the touchscreen to confirm messages.
• Tap the top and bottom of the touchscreen to scroll through menus.
• Make each touchscreen selection a separate action.

Playing Golf

You cannot start playing golf until the device acquires satellite signals, which may take 30–60 seconds.
1 Select > Start Round.
2 Select a course from the list.

Hole View

The device shows the current hole you are playing, and automatically transitions when you move to a new hole.

NOTE: By default, the device calculates the distance to the front, middle, and back of the green. If you know the location of the pin, you can set it more precisely using Green View (page 2).
Viewing the Green
While playing a game, you can take a closer look at the green and move the pin location.
1 Begin playing a game (page 1).
2 Select ➡️ > Green View.
3 Drag ⬇️ to move the pin location.
The distances on the hole view screen are updated to reflect the new pin location. The pin location is saved for only the current round.

Measuring a Shot
You can measure the distance of a shot at any time.
1 Select MEASURE.
2 Walk to your ball.
The distance automatically resets when you move to the next hole. You can hold MEASURE to reset the distance at any time.

Viewing Layup and Dogleg Distances and Saved Locations
You can view a list of layup and dogleg distances for par 4 and 5 holes. Saved locations (page 2) also appear on this list.
From the hole view screen (page 1), select the middle of the screen.
NOTE: Distances are removed from the list as you pass them.

Keeping Score
Before you begin keeping score, you must start a round (page 1).
1 From the hole view screen (page 1), select SCORE.
2 If necessary, select ➡️ > Change Par to change par for the hole.
3 Select ⬇️ or ⬆️ to set the score.
Your total score ⏎️ is updated.

4 Hold SCORE to view a list of the scores for all holes.
From this list, you can select any hole to change the score for that hole.

Setting the Scoring Method
You can change the method the device uses to keep score.
1 Select an option:
   • If you are currently playing a round, select SCORE > Scoring.
   • If you are not currently playing a round, select ➡️ > Setup > Scoring.
2 Select a scoring method.

About Stableford Scoring
When you select the Stableford scoring method (page 2), points are awarded based on the number of strokes taken relative to par. At the end of a round, the highest score wins. The device awards points as specified by the United States Golf Association.
NOTE: The scorecard for a Stableford scored game shows points instead of strokes.

<table>
<thead>
<tr>
<th>Points</th>

<tr>
<td>3</td>
<td>1 under</td>
</tr>
<tr>
<td>4</td>
<td>2 under</td>
</tr>
<tr>
<td>5</td>
<td>3 under</td>
</tr>
</tbody>
</table>

Viewing Scorecards on a Computer
You can view all saved scorecards on your computer.
1 Connect the device to a USB port on your computer using the charging cradle (page 1).
2 The device appears as a removable drive in My Computer in Windows® computers, and as a mounted volume on Mac® computers.
3 Open ScorecardViewer.html to view your scorecards.

Saving a Location
While playing a round, you can save up to five locations on each hole.
1 Stand in the location you want to save.
   NOTE: You cannot save a location that is far from the currently selected hole.
2 Select ➡️ > Save Location.
3 Select a label for the location.

Clearing Locations
While playing a round, you can clear previously saved locations for the current hole.
Select ➡️ > Clear Locations.
Using the Odometer
You can use the odometer to record the time and distance traveled. The odometer automatically starts and stops when you start or end a round, but you can also start and stop it manually.
1 Select ➔ ➔ Odometer to view or start the odometer.
2 Select an option:
   • Select ➔ ➔ Turn Off to stop the odometer.
   • Select ➔ ➔ Reset to reset the time and distance to zero.

Customizing Your Device
Settings
Select ➔ ➔ Setup to customize device settings and features.
Tones: Turns audible tones on or off.
Display: Sets the background color to black or white (page 3).
Scoring: Sets the scoring method (page 2).
Time: Sets the time to automatic or manual (page 3).
Format: Sets the time format to 12- or 24-hour.
Language: Sets the language.
Units: Sets to measure distance in yards or meters.

Setting the Time Manually
By default, the time is set automatically when the device acquires satellite signals.
1 Select ➔ ➔ Setup ➔ Time ➔ Manual.
2 Select ➔ ➔ and ➔ to set the hour and minute.
3 Select AM or PM.

Setting the Alarm
1 Select ➔ ➔ Setup ➔ Alarm.
2 Select ➔ ➔ and ➔ to set the hour and minute.
3 Select AM or PM.
4 Select Once, Daily, or Weekdays.

Changing the Display Color
You can change the background color on the device.
1 Select ➔ ➔ Setup ➔ Display.
2 Select an option:
   • Select White to display black text on a white background.
   • Select Black to display white text on a black background.

Appendix

Device Care
NOTICE
Do not store the device where prolonged exposure to extreme temperatures can occur, because it can cause permanent damage.
Never use a hard or sharp object to operate the touch screen, or damage may result.
Avoid chemical cleaners and solvents that can damage plastic components.

Cleaning the Device
1 Wipe the device with a cloth dampened with a mild detergent solution.
2 Wipe it dry.

</tr>
<tr>
<td>Water resistance</td>
<td>IPX7</td>
</tr>
</tbody>
</table>

Power Save
After a period of inactivity, the device goes into power save mode. The device displays the time and date but does not use GPS. The device will not enter power save mode if the odometer is on. You can select any button or tap the screen, then swipe left across the screen to exit power save mode.

Clearing User Data
**NOTE:** This deletes all user-entered data.
1 Hold POWER to turn off the device.
2 Hold SCORE, and select POWER.
3 Select Yes.

Getting More Information
You can find more information about this product on the Garmin® website.
- Go to [http://buy.garmin.com](http://buy.garmin.com), or contact your Garmin dealer for information about optional accessories and replacement parts.

Registering Your Device
Help us better support you by completing our online registration today.
- Go to [http://my.garmin.com](http://my.garmin.com).
- Keep the original sales receipt, or a photocopy, in a safe place.

Updating Software and Courses
Before you can update your device software, you must download Garmin CourseView Updater. Go to [www.garmin.com/support/courseview_updater.html](http://www.garmin.com/support/courseview_updater.html) for more information.
1 Connect the device to a USB port on your computer using the charging cradle (page 1).
2 Start CourseView Updater.
3 Follow the on-screen instructions.

Software License Agreement
BY USING THE DEVICE, YOU AGREE TO BE BOUND BY THE TERMS AND CONDITIONS OF THE FOLLOWING SOFTWARE LICENSE AGREEMENT. PLEASE READ THIS AGREEMENT CAREFULLY.
Garmin Ltd. and its subsidiaries (“Garmin”) grant you a limited license to use the software embedded in this device (the “Software”) in binary executable form in the normal operation of the product. Title, ownership rights, and intellectual property rights in and to the Software remain in Garmin and/or its third-party providers.
