

Printing a Mounting Template

NOTICE

It is not recommended that you print a mounting template on your own. Use the template that came in the product box.

If you do print the template, you must follow these instructions for printing a mounting template precisely. To print large templates, you need large enough paper and printer. Failure to have the correct sized paper and printer, or a failure to follow these instructions, may result in an incorrectly sized template and therefore an incorrect cutout (too large or too small) on the mounting surface of your boat.

NOTE: The options and locations of the options differ between Adobe Acrobat versions and other PDF viewing/printing applications. Be sure the scaling is 100% before printing.

- 1 Select **File > Print**.
- 2 Enter **2** in **Pages to Print** ①.
- 3 Select **Actual Size** ② for **Page Sizing & Handling**.
- 4 Verify that the paper size is larger than the template ③.
In this example, the paper is not larger than the template.
- 5 If the paper size is not large enough, select **Properties** ④ and select a **Paper Size** that is larger than the template.
- 6 After printing the template, use a ruler to measure at least one dimension line to ensure the template printed to 100% scale.

NOTICE

Garmin is not responsible for any damages or expenses resulting from a miscut mounting surface arising from a failure to follow these instructions.

6.6 mm
(1/4 in.)

3.2 mm (1/8 in.) pilot hole for wood screws
7.2 mm (9/32 in.) for nut plate
Tap to M4 if no nut plate

3.6 mm (9/64 in.) for nut plate
3,6 mm (9/64 po) pour la platine
3,6 mm (9/64 poll.) per piastrina filettata

Trou d'implantation de 3,2 mm (1/8 po) pour vis à bois
7,2 mm (9/32 po) pour la platine
Agrandir le trou au diamètre M4 si vous n'avez pas de platine

3,6 mm (9/64 Zoll) für Anniemutter
3,6 mm (9/64 in) para placa de tuerca
3,6 mm (9/64 pol) para placa de retenção

Foro di riferimento da 3,2 mm (1/8 poll.) per viti in legno
7,2 mm (9/32 poll.) per piastrina filettata
Utilizzare M4 in assenza di piastrina filettata

3,6 mm (9/64 tommer) til møtrikskive
3,6 mm (9/64 tomme) for mutterplate
3,6 mm (9/64 tum) om det finns en mutterplatta

3,2-mm-Vorbohrung (1/8 Zoll) für Holzschrauben
7,2 mm (9/32 Zoll) für Anniemutter
Auf M4-Größe vernieten, falls keine Anniemutter verwendet wird

Orificio guía de 3,2 mm (1/8 in) para tornillos para madera
7,2 mm (9/32 in) para placa de tuerca
Roscar a M4 si no hay placa de tuerca

Orificio-piloto de 3,2 mm (1/8 pol) para parafusos de madeira
7,2 mm (9/32 pol) para placa de retenção
Rosqueie ao M4 caso nenhuma placa de retenção seja encontrada

3,2 mm (1/8 tommer) forboringshul til træskruer
7,2 mm (9/32 tommer) til møtrikskive
Tilpas til M4, hvis der ikke er nogen møtrikskive

3,2 mm (1/8 tomme) styrehull for treskruer
7,2 mm (9/32 tomme) for mutterplate
Trykk videre til M4 hvis mutterplate mangler

3,2 mm (1/8 tum) rikthål för träskruvar
7,2 mm (9/32 tum) om det finns en mutterplatta
Tryck på M4 om det inte finns någon mutterplatta

288 mm
(11 5/16 in.)

446 mm
(17 9/16 in.)
